

The Lacombe Guardian

VOL. 1, No. 42

LACOMBE, ALBERTA, FRIDAY, MARCH 13, 1914

\$100 PER YEAR

Items of Interest Locally

For all lines of poultry supplies go to Nicholson & Switzer.

Miss Lord returned this week from an extended visit in the east.

For first grade oil for your incalculator go to Nicholson & Switzer.

C. A. Rouleau & Co. have launched a new weekly newspaper at Clive, the News-Record.

Just received a full line of Nylor chocolates, a full guarantee with every box.—City Pharmacy.

The W. A. of St. Cyriac's church are arranging to give the play "Sleeping Beauty" sometime within the next few weeks.

The gophers are out. Spring is here. But now is the time to get your poison ready.—City Pharmacy.

Acting Premier Stewart was in town Wednesday on his way to Stettler to attend a big banquet given by the United Farmers and the Board of Trade.

Maurice Ties has been successful in winning the Winnipeg Telegram outfit for which he has been working for some time past. The ponies arrived on Thursday.

An auction sale of town lots, stock and implements will be held at Clive on Saturday, March 21. Phone or write Guy Wilson, Clive, for terms, and particulars. Col. Stewart will call this sale.

Under the auspices of the Ladies Aid, a lecture on "Shikareers" will be given by Rev. S. W. Dyde, D. D., of Edmonton, on Friday evening, March 20, at 8 o'clock, in the Presbyterian Church. Admission 25c.

Rev. M. White left on Monday for Calgary to attend meetings in connection with the work in Alberta. From there he proceeds to Toronto, to attend the Union Missionary Conference, which meets on the 17th. He will then take a much needed vacation, visiting relatives in Pennsylvania for several weeks.

Several disastrous runaways have occurred in town that in all probability would never have happened had the owners observed the bylaw requiring all teams left standing on the streets to be securely tied. The town council, we understand, has decided to put the bylaw into force, giving due notice so that no team owner can have ground to plead ignorance of the regulation.

The annual meeting of the Lacombe Brick, Tile and Cement Co. Ltd. was held in the town hall on the 12th inst., at three o'clock p.m. The meeting was well attended by the shareholders and the reports were all unanimously adopted. The following directors were elected for the year 1914.—D. G. Gourley, A. M. Campbell, E. H. Wilson, F. Vickerson, B. F. Allison, Geo. F. Naumel, Jas. P. McPherson, John Dameron, Dr. Gilgour.

For satisfaction in groceries try Nicholson & Switzer.

Mr. Fouts is arranging a dance for St. Patrick's night, in Booda's Hall.

Mrs. S. M. Burger and children left on Wednesday for a visit to their old home in the States.

Mrs. W. J. Simpson will not receive until March 24th, and thereafter on the third Tuesday, as usual.

We carry a full line of all gophers, poisons, Strichnine, Gopher-kill, Kill 'em quick. Call and see us.—City Pharmacy.

Changes in Train Service

A new through train service between Edmonton and Spokane will start on March 16. Under the new schedule the Spokane Express leaves Edmonton at 8 o'clock, Lacombe at 10:58, leaves Calgary for Spokane at 16 o'clock. This train will be daily and replace the one that has been leaving Edmonton at 8:30 each day except Sunday. The afternoon Sunday train between Edmonton and Calgary will be discontinued.

Tango Not Lascivious

A large audience turned out on Monday night to see the tango and other new dances demonstrated by Miss Ethel Netherdale and Mr. J. K. Pouley, of Prof. Robinson's Dancing Academy.

The chief interest centered in the tango, largely no doubt owing to the large amount of criticism it has received at the hands of the clergy and other moral reformers in some places. It could not have received a better advertising than this same criticism has given it.

The dance proved to be a very pretty and graceful one, to which no more objection could be taken by anyone than to the ordinary ball room dances now in vogue. It is, however, a very intricate dance, and for this reason will not be danced by a very large proportion of the dancing public.

We are almost compelled to believe that Archbishop Bruchesi and other critics of the tango must have stumbled into "hoche kooche" joints instead of witnessing tango demonstrations, as they evidently believe they did. Their unjust criticisms could hardly be accounted for in any other way.

BIRTH

Elliot.—At Pleasant Valley, on Sunday, February 16, to Mr. and Mrs. Harry Elliott, twins, a son and daughter.

The Rimbe Election Case

Tegart vs. Bunch

At a special sitting of the District Court held by His Honor Judge Less at the town hall, Lacombe, on Wednesday, the 4th inst., the above case was heard.

The application was by Mr. Alexander Walker Tegart of Rimbe, to oust Mr. Perry Bunch from his position as councillor for Division 3, of Local Improvement District 430, upon the grounds that Mr. Bunch had been elected unduly or contrary to the Local Improvement Act. The facts, as disclosed by the evidence in this case, were as follows:—The election for councillor for Division 3, of Local Improvement District 430, was held on the 12th of January, 1914. The candidates for election were Mr. A. W. Tegart and Mr. P. Bunch, and the returning officer was Mr. John Huston Vliet.

The polling place for Division 3 was at Mount Laramie school house. The first objection of the applicant was that the returning officer had not set apart a portion of the room, where an elector might mark his ballot without the manner of marking the same being discovered. According to the evidence of numerous witnesses for the applicant, there was no proper place provided for this purpose at all. Mr. Vliet, the returning officer, in his evidence stated that he had provided proper accommodation for the marking of the ballot papers. This consisted according to his evidence of a bench placed in the corner of the room, upon which he placed several books with a pencil on the top. His Honor in giving judgment held that the accommodation provided did not comply with the requirements of the Act, and that the failure of the returning officer to provide the necessary accommodation had a material effect in deciding the election.

The more important ground of the applicant's petition was in relation to the rejection by the returning officer of the vote of one Mr. John Dixon. According to the evidence it was admitted that Mr. Dixon was a ratepayer for Division 3 of Local Improvement District 430, and that his name appeared on the assessment roll for the said division. The secretary-treasurer on or before the day of the election had supplied the returning officer with a list of the names of persons who according to his books were in arrears with their taxes. The returning officer, when Mr. Dixon applied for his ballot, refused to give him one, upon the ground that his taxes were not paid. Mr. Dixon insisted that they were, and stated his willingness to sign the declaration provided under the Act, declaring that his taxes were paid. Eventually the returning officer handed Mr. Dixon a ballot. There being no proper place for Mr. Dixon to mark the ballot, he had to mark it at the same table at which the returning officer was seated, with the result that the returning officer saw in

those favor he voted. Afterwards Mr. Dixon folded his paper and handed it to the returning officer, who placed it in the ballot box. After the poll had closed, the votes were counted by the returning officer, who declared the result to be that there were 18 votes for Mr. Tegart and 17 for Mr. Bunch. The returning officer, who admitted in evidence that he was a friend and supporter of Mr. Bunch, then stated that he cancelled Mr. Dixon's vote and deducted the same from the number of votes given to Mr. Tegart, which left a tie. The returning officer then in his official capacity gave the casting vote in Mr. Bunch's favor, which gave him a majority, and declared Mr. Bunch duly elected.

Mr. E. H. Jones, who appeared for the applicant, contended that Mr. Dixon, being on the assessment roll, and having signed the declaration that his taxes were paid, was entitled to vote, and further that the returning officer, having accepted his vote, and placed it in the ballot box, could not afterwards reject it.

Mr. A. M. MacDonald, who appeared for Mr. Bunch, contended that the fact that the secretary-treasurer's books showed that Mr. Dixon's taxes were in arrears was sufficient grounds to render his vote illegal, and that the returning officer was justified in rejecting the same.

After the adjournment at noon there was an interesting legal argument by counsel for each party upon the points of law involved in this case. His Honor in giving judgment, stated that he found (1) that the returning officer had not provided a proper place for secret voting, and that his failure to do so was a material ground for upsetting the election; and (2) that from the evidence before him he was satisfied that John Dixon had either paid or worked out his taxes, and that his taxes were consequently not in arrears, and his vote was legal. His Honor declared Perry Bunch to be ousted from the office of councillor for Division 3 of Local Improvement District 430, and ordered him to pay the costs of the application. His Honor delivering judgment also commented very strongly on the conduct of the returning officer in looking to see how Mr. Dixon voted, and more particularly to his having made use of his knowledge, thus improperly obtained, to alter the result of the poll.

The case has caused considerable interest in the Rimbe district and a large number of local people attended the hearing.

The solicitor for the applicant was Mr. E. H. Jones of Lacombe, and the solicitors for Mr. Bunch, the defendant, Messrs. MacDonald & McBride also of Lacombe.

Stiff Sentence for Youth

Calgary, March 5.—Six months imprisonment with 30 lashes was the sentence imposed on Harold Boardman, 19, for assaulting and robbing 17-year-old Mary Jeffrey,

by Magistrate Sanders yesterday. "You have rendered yourself liable to life imprisonment with flogging," said the magistrate in passing sentence.

Evidence of Boardman's previous good character was given. He was a member of the Central Methodist church orchestra and was never in trouble before. His father, who was much affected by the sentence, stated that his son's worst habits were reading trashy novels and smoking cigarettes.

Boardman did not display any emotion when the sentence was passed.

Texas Rangers Enter Mexico

Laredo, Texas, March 8.—Texas Rangers, who secretly crossed into Mexico last night, today brought to the American side the mutilated body of Clemente Vergara, Texas ranchman, and established the fact of his execution, after he was seized by Mexican Federals.

Vergara was shot twice through the head and once through the neck; his skull was crushed as by a blow from a rifle butt, and the charred fingers of the left hand indicated that he had been tortured before being put to death.

Identification was made by Vergara's sons and by numerous friends, many of whom were in the party of ninety, led by the state border patrol, which made the grim journey to the Hidalgo cemetery during the early morning hours today. The body was not badly decomposed despite its three week's burial.

The recovery of the body was made by a force of Texans, largely friends of Vergara, acting with a troop of Texas Rangers, under Captain Saunders, who have been investigating for Governor Co. Location of the grave proved an easy task, for it had been a centre of speculation and wonder since it appeared after a swinging body had been cut down from the place of execution when the hue and cry over Vergara's disappearance started an investigation.

The body had been rudely interred, with little effort to protect it from the earth. With their burden fixed on a stretcher, carried by six of Vergara's friends, the procession started unchallenged on the return journey to the United States.

It is understood a thorough examination of the body has been ordered by the state authorities.

Austin, Texas, March 8.—Governor Colquitt tonight authorized the statement that he did not specifically instruct Ranger Captain J. J. Saunders, who recovered Clemente Vergara's body, to cross the border to get it.

"However, we wanted Vergara's body to determine the manner of his death, and we have it," said the governor, tersely, and added, "Some people may call this an 'invasion,' but it is not."

The official report of Captain Saunders was given as follows: "Proceeded to Hidalgo, secured Vergara's body, and returned it to Laredo."

A Wholesale Runaway

That Lacombe habitually does things in a large way was again illustrated on Friday morning, when a series of runaways entwined things very materially for a time.

T. Johnston, living north of town, was coming down Nanton street on a buckskin pony which he was riding with halter only. Three dogs with the habit of running out at horses took after the pony, biting its heels, and it became unmanageable. The meloe frightened a team belonging to the White Horse Farm, which was standing tied in front of the Atlas lumber yard hitched to a demount, and this team dashed down Nanton street at breakneck speed.

Their momentum and the slippery surface of the street together made it impossible to turn, so they dashed straight ahead into Urquhart's plate glass front, both horses falling in the doorway and smashing to fragments two of the big plate glass windows and also three heavy corrugated basement windows. A table of chinaware standing just inside on the main floor also suffered wholesale breakage.

On its mad career down Nanton street the above team frightened Anderson's dairy team which immediately inaugurated a runaway of its own, successfully negotiating the turn at the end of Nanton street, and ran westward on Barnett avenue at a terrific pace. After a run of three blocks, this team overtook a farm team belonging to John Rimbe, driven to a demount, and went straight into and over it. Mr. and Mrs. Rimbe were on the seat at the time and both were knocked out and under the feet of the horses. The pole of the dairy wagon passed between them as they sat on the wagon seat and they were struck by the neckyoke and by the horses. It is nothing short of a miracle that both were not killed, but they fortunately escaped with nothing worse than severe bruises.

The dairy team came down in a bad mixup with Mr. Rimbe's demount, one horse being astride the front axle between the wheel and the body of the wagon, while the other horse was thrown outside of the two wheels on the other side and mixed up in the spokes.

Mr. Rimbe's team broke loose and ran westward two blocks, where they were stopped uninjured. Both of the other teams were more or less bruised and cut, but apparently suffered no permanent injury.

All three of the rigs and sets of harness were much damaged.

DEATH

Storey.—At Lacombe, on Thursday, March 12, George Storey, Sr., aged 77 years and three months.

The funeral was held from the residence of his son, J. L. Storey, Lakeside district, on Friday afternoon at 2 o'clock, to Lacombe cemetery.

THE GOVERNMENT HAS OVERREACHED ITSELF

The report of the National Transcontinental investigation commission is of itself steadily defeating the ends of its political draughtsmen. In their eagerness to meet the wishes of the Government and make political capital, Messrs. Gutelius and Lynch-Staunton have disregarded facts entirely too much. When the report comes up for debate in the Commons shortly, the chances are that it will be the investigating commissioners themselves who are on trial rather than the former commissioners of the National Transcontinental Railway. Liberals in caucus this week decided that there could not be too much light thrown on all the expenditures in connection with the National Transcontinental Railway and that there must be a thorough ventilation in Parliament of every charge of alleged waste made by the ex-O. P. R. divisional superintendent and the Conservative lawyer from Hamilton.

A number of significant facts have been brought out during the past few days in the Commons by replies given by the Government to inquiries from the Opposition and by correspondence tabled dealing with the relations of the Grand Trunk Pacific to the present head of the National Transcontinental Railway. Hon. Frank Cochrane stated in the House that the contract for the whole of the Hudson Bay Railway, over 400 miles in length, had been let to Mr. J. D. McArthur, who was formerly a contractor on the National Transcontinental Railway. Hon. Robert Rogers admitted that the Welland Canal contracts, aggregating expenditures of over \$20,000,000 had been given to four contractors. Some of these latter contractors were also amongst those who, according to Messrs. Gutelius and Lynch-Staunton got "take-offs" in connection with the construction of the National Transcontinental Railway.

One of the strongest points made by Messrs. Gutelius and Lynch-Staunton was that there had been an alleged waste of nearly \$8,000,000 through letting the contracts for the National Transcontinental Railway to a few large contractors and by allowing sub-letting to smaller contractors instead of adopting the policy of letting out contracts for only comparatively small sections of the road. Now it appears that the Government is doing on the Hudson Bay Railway and on the Welland Canal the same thing that the Laurier Government is blamed for doing in the case of the National Transcontinental. In the case of the Hudson Bay Railway and the Welland Canal, the big contractors are sub-letting to smaller contractors. What was wrong under the Laurier Government is apparently right under the Borden Government.

Another direct and conclusive answer to one of the main charges of Messrs. Gutelius and Lynch-Staunton is given in the correspondence dealing with the construction of the Transcona shops at Winnipeg. The investigating commissioners said that the expenditure of four and a half millions of dollars on these shops represented patently so much "waste"

and was "in our opinion, not authorized by law." The correspondence tabled by Hon. Frank Cochrane last week shows that against the opinion of these substandard partisan condemnors of the National Transcontinental there are explicit and repeated opinions to the contrary of the question of law by the present Minister of Justice, Hon. C. J. Doherty, by the ex-Minister of Justice, Sir Allan Aylesworth, by the Deputy Minister of Justice, Mr. Newcombe, and by the law clerk of the National Transcontinental commission, Mr. H. Atkinson, while on the question of practical utility and necessity for the shops there is the opinion of Sir William Whyte of Winnipeg, one of the best known railway authorities on the continent. Messrs. Gutelius and Lynch-Staunton had read the opinions of these gentlemen, but despite that they deliberately inserted in their report the declaration that the construction of the shops was "not authorized by law" and that the expenditure was unnecessary and wasteful.

One more significant disclosure may be referred to. The correspondence in connection with the construction of the new Quebec terminals for the National Transcontinental Railway shows that the Grand Trunk Pacific repeatedly protested against the arrangement entered into without their consent between Major Leonard and the Canadian Pacific Railway for union terminals. President Chamberlain of the Grand Trunk Pacific declared that the estimated cost of the new union terminals over \$8,000,000, was entirely unwarranted by the prospective business at that port, and that under the agreement entered into, the Canadian Pacific Railway had the entire control of the terminals. But the Government went ahead with the agreement demanded by the Canadian Pacific Railway and ignored entirely the Grand Trunk Pacific thus apparently inviting the latter road to back out of its agreement made with Parliament in 1904 in regard to operation of the National Transcontinental Railway.

Finally there is to be noted the fact that the latest estimated cost of the construction of the road when completed at the end of the present year, is \$161,307,800. These are figures given to the House on Monday last by Hon. Frank Cochrane, but according to the report of Messrs. Gutelius and Lynch-Staunton it is stated that the estimated cost of the whole road according to general engineer Gordon Grant on September 30th, 1911, was \$161,300,000. Two years afterwards, and after the Government has had ample time to effect the "economies" referred to by Messrs. Gutelius and Lynch-Staunton, the estimate of the total cost is actually increased. Apparently the present Government "economies," while aiming to lower the standard of the road are resulting at the same time in increasing the cost.

An investigation of the investigators would be of public interest.

THE PRICE OF THE REPORT

The total cost of the Commission appointed by the Borden Government to report on the National Transcontinental Railway is not yet known. In Parliament the outlay up to February 18th,

1914, was stated to be \$60,388.45, divided as follows: F. P. Gutelius, \$27,466.48; Lynch-Staunton, \$24,088.01. Other expenses, \$11,894.96.

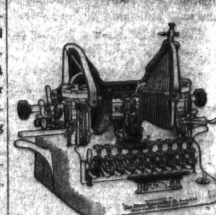

A cabinet minister receives a salary of \$7,000 per year, but the gentlemen appointed to bring in a report which would serve a useful political purpose have demanded and secured as payment for this service a sum from three to four times this amount, for work which has occupied only a part of their time during a period of about two years. Mr. Lynch-Staunton has continued his practice as a Barrister and in addition to what his profession has brought him has received over \$24,000. As to Gutelius, it remains to be seen if he has not been drawing two salaries, one as General Manager of the Intercolonial Railway at several thousands a year, and the other as one of the Commissioners to investigate the Transcontinental Railway with a return of an additional \$27,466.

Keep Records of Your Dairy Cows

Within the next few weeks several hundred cheese factories will be opening, hundreds of farmers will be preparing to milk thousands of freshly calved cows. Logically this beginning of a new season is the time to commence keeping records of production of the cows separately. Just a knowledge of the total yield of milk from the whole herd may give the owner an idea of the average yield per cow, but that does not give quite enough information. There may be a thousand pounds of milk difference in the total yield of two cows for the season, which would be unnoticeable in the small difference in the appearance of their two milk pails daily. Often the difference is far more than a thousand pounds, yet all cows are lumped together, good, poor and medium, all alike, when taking merely an average.

Since keeping records of individual production many a dairyman has increased the average of his herd by fifteen hundred, and two thousand pounds of milk or more, because he has been able to detect the poor, unprofitable cows that masquerade as real dairy cows. On application to the Dairy Division, Ottawa, milk record forms and instructions are supplied free. Write today, and begin the new season right, with the object of keeping none but profitable cows.

The OLIVER Typewriter

It is economy to buy the best.

All I ask is the opportunity to prove to you that the Oliver Typewriter is the best in the world. If you need a typewriter you owe it to yourself to become acquainted with the Oliver.

DOLLARS FROM MILK

The Cows in a Broad-shouldered Step
Owner to Cash Money

In 1909 the representative of one of the largest, condensed milk companies in the United States, interviewed the Town Council at Tillamook, Oregon, with a view to securing their cooperation in the establishment of a milk factory in that town. It did not take the live merchants of Tillamook long to realize that the five or six thousand dollars, which the company proposed to distribute to the milk producers around Tillamook each month, would soon go into circulation over the shoulders of the farmers. As one merchant put it: "The increase in the price of milk would enable a farmer to buy at least one hat per year more for his wife in addition to many other equally necessary things."

On the first of October, 1909, the factory opened its doors and 21,000 pounds of milk went into the condenser. After four years operation it is interesting to note the effect of this industry in the neighborhood. Prior to the establishment of the factory farmers had been getting from 80c to 11 per cent. for milk. In 1914 the price had risen to \$1.45 per cwt. The price has risen continuously. The price is now \$1.45 per cwt., with prospects of going higher next year. From receipts of only \$1,000 pounds from a few patrons the factory has increased its capacity until it now takes care of 213 patrons and 181,000 pounds of milk in one day.

Company's scientific methods and its educational efforts to improve cattle-raising with a view to better milk production have been of tremendous value to the country. Cows have gone up in price. When formerly a good dairy grade Holstein sold at \$40 to \$50 it now brings from \$50 to \$100, and there has been a corresponding increase in good milkers and pure breeds.

Some interesting figures are available from some of the patrons. One farmer from eight cows during eight months time received \$1,057.35 in cheques from the Borden factory. Certain parts of the Western country are eminently suited for dairying, and there is no doubt that within a few years condensed milk factories will be established at different points in the West, thus creating a profitable home market for milk and cows.

GRAIN ON THE HOOF PAYS THE COUNTRY

A Striking Statement of the Toronto Globe Regarding Canada's Foreign Trade

The Toronto Globe says that one of the most suggestive features of Canada's foreign trade returns for the past year is to be found in the large exports of grain. The Globe continues:

"The export to sell grain on the hoof is being diversified, and the results must tend ultimately to lessen and exhaust productive capacity. The reports of breadstuffs increased from \$91,045,330 in the previous year to \$127,685,675 in the year under review. Wheat exports increased from \$43,744,187 to \$59,465,160, which shows that the West is fulfilling predictions, and that four increased from \$16,347,353 to \$30,144,703, which shows that our power development is promoting secondary industries. It is evident that immediate returns are sought more eagerly than perpetual fertility, and that the loss through the subsiding of farms is not being considered sufficiently. It is suggestive, in this connection, that exports of bacon and hams decreased from \$7,833,033 to \$5,432,967, and of butter from \$5,074,771 to \$4,629,230. Cheese exports total \$1,055,622, which is but a slight increase from the previous year's record. These important items show the need of diverting effort toward stockraising and lines of production which replace fertility."

WESTERN HOME MARKET

The Army of Consumers Make It an Inviting Field for Manufacturers

Range idea of the enormous consuming power of the Prairie Provinces may be gathered from the statistics supplied by the Winnipeg Industrial Bureau, who at great labor and with commendable enterprise, definitely ascertained the number of straight carload lots shipped last winter in the year 1913. The following are a few of the figures:

Agricultural implements, 2,150; wire nails, fencing, 1,850; cement, 1,300; furniture, 1,000; hardware, 1,043; sugar, 772; paper, 642; machinery, 799; carriages and wagons, 719; iron pipe, 682; stone, 642; cement, 564; canned goods, 571; brick, 489; barrels,

214; sewer and drain pipe, 147; automobiles, 103; glass (windows and plates) 43. These are only a few of the principal items shipped a list is being made in the manufacture of some of these lines in the West. There is abundant opportunity, however, for new factories. When these thousands of carloads of products, the bulk of which are now manufactured in Eastern Canada, are turned out in Western workshops, employment will be furnished for an army of workmen, who with their wives and families, will provide a profitable market for the varied products of mixed farming.

FUTURE ASSURED

Many Industrial Advancements in Our Western City Are Good Indications

The Edmonton Bulletin has printed a "made-in-Edmonton" list, a list of 100 enterprises. Amongst the twenty-three industrial enterprises which use this medium of publicity are three metal works companies, a foundry and machine company, an auto top company, two furniture companies, a glass works, a concrete company, a sawage concern, a manufacturing jeweler, a chemical company, a shoe manufacturer, an electro-plating plant, a lumber firm, a dairy company, a rubber plant company, a leather company, a paint maker, a box company and two motor boat companies.

On this page appears an article by the Edmonton Industrial Commission calling attention to the fact that Western Canada is rapidly becoming one of the greatest markets in the world for manufactured goods. The country is filling up rapidly with prosperous people who demand the best wares and are willing to pay for them. Eastern Canadian, American and British manufacturers are establishing branch factories on the ground, and amongst them is a materials ready in their hands to the Edmonton district are salt, limestone, silicate, shales, clay for brick and pottery purposes, gypsum, sandstone, glass sand, gold, coal, petroleum, and timber on navigable waters convenient to the city. The commission declares that the Western Canadian industrial, well backed by a rapid agricultural growth warrants belief in the speedy development of Edmonton into a great city and in the rise of many other industrial communities of much importance.

ARMY OF DINNER-PLATES

Moose Jaw's Aim is to Be an All-round Successful City

President Critchton, of the Moose Jaw Board of Trade, in his annual address to that body early in the year, emphasized the necessity of manufacturing development in the upbuilding of the successful, well rounded city in the course of his address he said:

"The people are here, the market is here, we want the manufacturer to supply our needs. One fact which must not be lost sight of, and indeed, must be impressed more and more on the minds of the citizens of Moose Jaw, is this, that in order that this city shall be established on a strong economical basis it must have an array of full dinner-plates—in other words—it is the volume of industrial wares which we need, and will be the mainstay of any important city. Therefore, our great need is manufacturing and industrial concerns. And as the securing of manufacturers to locate in our city is a work that requires great experience and knowledge of manufacturing, and is a profession of its own, and every city of any note in the country employs an expert to look after this work."

THE LAST PLANK DISCARDED

Another plank of the Halifax platform has gone by the board.

With an almost cynical disregard of its pre-election promises, Premier Borden in the Commons on Tuesday last declared that he must definitely postpone the fulfilment of the pledge to grant Provincial control of natural resources to the Prairie Provinces. It was on that pledge that Premier Borden got most of his support from the West during the election campaign of 1911. Speaking at Brandon he bravely declared: "If it should be the will of the people of Canada to impose on me the great responsibility of being called on to form a Government, then after that Government has been formed, the policy I have outlined will be carried out as I have stated to one man of

the Government will go out of public life." The policy referred to was the right of the Western Provinces to own and control their natural resources in the public domain. In 1902, in 1903, in 1904 and in 1911 Mr. Borden made the chief appeal for the votes of the Western people on this policy.

Mr. Borden was placed in power; he has been in power now for nearly two and a half years. When challenged in the House on Tuesday last by Mr. Buchanan to carry out his pledge to the West the Premier went back on all his brave words and high professions. He took refuge behind the excuse that his positive and unqualified pledge could not be carried out exactly with the consent of the eastern Provinces. At the same time he did not attempt to bring the matter before the Provincial conference in the Capital last autumn. Speaking in the Commons on Tuesday he declared: "It is manifest that unless (the Premiers of the three Prairie Provinces) are disposed to modify their request they must not only by consideration but inquiry. By what means such inquiry should be undertaken it is not for me to say."

It was Mr. Borden who had the word "speedy" put in the resolution with regard to the construction of a Canadian navy. It was Mr. Borden who promised the electors in 1911 that there would be economy and honesty in the administration of the public finances, that there would be Civil Service Reform, that the Senate would be reconstituted so as to make it more representative to the popular will, that the law with regard to electoral purity would be strengthened and that elections would be conducted in a clean and honest manner. And it was Mr. Borden who said to the people of the West: "You are free men and being free men in a free country you have as good a right to control by your own local legislatures the administration of your public lands and natural resources as have the people of any of the Eastern Provinces who enjoy that right."

Practically the last plank of the whole Halifax platform is now broken and discarded.

Edmonton Spring Horse Show

The Edmonton Exhibition Association will utilize their magnificent new stock pavilion, the largest of its kind in Canada, and up to date in every particular to conduct one of the largest horse shows, combined with a cattle sale and fat stock show, ever given in Western Canada. The official opening will take place Tuesday evening, April 7th, at 8 p.m., and there will be afternoon and evening performances each day of the show. Over \$10,000 will be offered in prizes. The directors have decided to pay the freight on all Alberta-owned live stock to the Exhibition grounds, except the cattle entered for sale, on which a minimum charge of \$2 per head will be made. Liberal prizes have been offered for fat stock in our lots, the first prize for steers being \$150, given by the Natural Resources Department of the C.P.R., with second, third and fourth prizes of \$100, \$75 and \$50 given by Association. The first prizes for car lots of sheep and swine are \$100 each, also given by the C.P.R. Generous prizes are also given for

individual entries, groups and pens of all kinds of fat stock, with a carcass competition for which large cash prizes are again given. Altogether over \$2,000 is offered for prizes in fat stock. It is expected that the Horse Show, both for breeding classes and harness horses will attract a large entry not only from Alberta but from different points in Canada. Special prizes are given for green horses and also for horses that are owned in Alberta in all classes. Some of the fastest Standard Breds, some of the highest jumpers in Canada, and the best hunters and high steppers, are expected to provide entertainment daily for the large crowds who are sure to patronize this show. Single fare return has been arranged for on all railroads.

SNAPS

O BUODE, Nanton St.

NOTICE

To John Onton, formerly of Wittenburg, in the Province of Alberta.

Take Notice that an action has been commenced against you by the National Trust Company, Limited, in the Supreme Court of Alberta, in which the said Plaintiff claims payment of the sum of \$668.75 in respect of a mortgage made by you, and the costs of this action, or an Order that your interest in the North-West quarter of Section 24, in Township 41, in Range 4, West of the Fifth Meridian, be foreclosed and that the said property be vested in the National Trust Company, Limited.

And further take notice that you are required to enter an appearance at the office of Clerk of the Supreme Court of Alberta, Wetaskiwin Judicial District, on or before the 14th day of March, 1914, and in default of your so doing judgment may be signed against you and your interest in the said lands may be foreclosed.

Dated at Edmonton this 3rd day of February, A. D. 1914.

GRIEBACH, O'CONNOR & COMPANY,

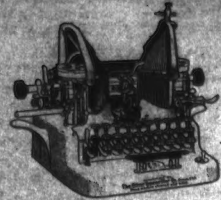

Solicitors for the Plaintiff.

The Twelfth Miss

The accomplished and obliging pianist had finished several selections in the hotel auditorium and the guests were discussing other numbers. One turned to an elderly lady and said, "Now, for instance, there is Moore's Twelfth Miss. You remember that Mrs. Bismont? Remember that I should say so. Why, my husband inserted through the war in that very regiment."

DR. WILLIAMS' PINK PILLS MAKE WOMEN WELL

Just because she is a woman, there are times when every woman needs help and strength in the form of a blood-building tonic.

To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing, because they enrich the blood, give strength and restore tone in the aching, tired, anemic, and listless body. The pills reach the middle, are for all such sufferers. Dr. Williams' Pink Pills are invaluable, both as a preventive and as a remedy for all such ailments. They are usually caused by poor blood or insufficient blood. These pills have cured thousands of others, my dear young Mrs. M. Morine, Wallbrook, N. S., says: "It is impossible for me to say too much in praise of Dr. Williams' Pink Pills. I have been a great sufferer from those troubles that make the life of so many women an almost constant misery. Pains in the back and side, racked and tortured me. My nerves seemed to give out, and at times I could do no house work, and only women who have similar sufferings know what I endured. I tried medicine after medicine without any benefit, and was finally persuaded to try Dr. Williams' Pink Pills. Soon after starting the pills I found an improvement, and as I continued their use my health and strength returned, and I now feel as well as ever I did in my life, and I am relating my experience merely in the hope that it may lead some other suffering woman to renewed health. I may add that my mother suffered from rheumatism, so badly that she had to use a crutch, and Dr. Williams' Pink Pills completely restored her to her usual good health."

Always get the genuine style with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. If your dealer does not keep them, the pills will be sent post paid at 50 cents a box or six boxes for \$2.50, by writing: The Dr. Williams' Medicine Co., Brockville, Ont.

Easy to Find

And did you ever seek the man, we asked the official. "Once or twice," replied the doctor. "I found him waiting outside my door."

A young lady was studying to be a nurse, and she said one day to a popular surgeon: "What did you operate on Mr. Socio for?"

"For \$5.00, the surgeon answered. No, she said; I mean what did he have?"

Three thousand dollars, was the surgeon's reply.

Time consumes all, and we must time obey.

Visitor (at the national gallery)

Why, then, the very same picture I saw here the day before yesterday.

Attendant (dryly)—Quite likely.

Visitor—Then the landlord where I am staying is wrong.

He said my last picture was changed daily in all the leading picture houses.

Can't this quarrel be patched up between Mrs. Wombat and Mrs. Walaby?

No, this quarrel cannot be patched up.

Mrs. Wombat offered Mrs. Walaby's cook \$25 more for meat.

Fortunate

Did your husband have any luck on his hunting trip?

Splendid! Did you hear?

No, what was it?

He got back alive.

CATARH NEVER STOPS IN SAME PLACE

REACHES THE LUNGS—DEVELOPES CONSUMPTION

To Stop a Cold Quickly and Prevent Catarrh, Use "Catarrhose"

Nothing more serious than the common cold.

If it gains a way you can't stop it from running into Catarrh, deafness, or serious throat trouble.

Catarrh spreads very fast.

From nose to throat it goes in a day. Soon the bronchial tubes are affected, and before you know it, unless very healthy the lungs are hit, and life too late.

While you have the chance, drive colds and Catarrh right out of your system.

You can quickly do so by inhaling the rich piney vapor of Catarrhose. Right to where the living germ of Catarrh is working will the healing fumes of Catarrhose go in ten seconds.

No liquid medicine can penetrate to the deep recesses that Catarrhose reaches with its soothing vapor—that's just why it proves so wonderfully effective.

The healthful vapor of Catarrhose cures the worst of coughs and hoarseness. The uttermost parts of the bronchial tubes are reached. Bronchitis is cured—every cell in the throat, nose, and lungs is treated by Catarrhose's wonderful fumes.

You can't beat Catarrhose for business; work throat, nose and lungs. Catarrhose is the only medicine that cures catarrh and bronchitis of any kind. Get the complete \$1.00 outfit. Trial size 50c. Trial size 50c. at dealers everywhere.

Shooting Affray at Coronation

Frank Walters, a farmer near Coronation, is lying at the point of death at Coronation with a bullet hole in his left temple and the bullet still inside his skull while Eric Person, also a farmer of the same district, is in custody of the mounted police, as the result of a quarrel which occurred in the bush where the men were cutting logs on March 4th and which ended by Person drawing a revolver and firing three shots at Walters' head.

The story of the affair as told in the report of the mounted police is briefly as follows:

On the afternoon of March 4 Walters and a man named Henry Bruner, went together to the place in the bush where the farmers in that district were cutting logs. Walters suspected that someone was stealing his logs and took Bruner along to see if it were so. They arrived at the logging patch and saw E. Person and a man named Anderson loading logs on a sleigh. They examined the load and found two of Walters' logs in it. Walters then accused Person of stealing his logs and refused to let him depart until he unloaded the two logs. Person attempted to drive away but Walters held the horses.

The quarrel became more bitter and Person drew a revolver and

aimed it at Walters' head. Walters had a stick in his hand and sprung at Person to knock the revolver from his hand. Person, it is alleged, fired three times, the last bullet hitting Walters on the left temple and he fell to the ground. As Walters fell to the ground, Person said: "My God, I have killed him."

Person then went away and Bruner carried Walters to his home.

The next day Person gave himself up to the police, saying that he had killed Walters. He was taken into custody and on March 6th he was brought before B. J. Beach and T. H. MacFarlane, two justices of the peace and committed for trial on the evidence of Bruner.

Walters is at the point of death and in case he should never be able to give evidence a statement was secured from him which confirms

the evidence given by Bruner. Person was released last Saturday on \$10,000 bail.
